*These pianists have recorded the arrangement by Vladimir Horowitz. Andsnes and Browning perform their own versions, similar in some places to that of Horowitz. Atamian and Bar-Illan both make minor additions/emendations to the score.

**A recording on the Concert Artist CD label, purporting to be by Joyce Hatto is actually a pirated recording taken from the CD of Michele Campanella. Thus the listed recording date of January 8, 1996 is also fictitious.

***Plays the original version of Baba-Yaga and Great Gate

****This pianist holds the distinction of having made the earliest, as far as is known, recording of *Pictures*. How much of the work he recorded is unknown, pending my obtaining a copy of the recording.
